

Mudralaya Complete UX Flow (Page-wise Working)

1. Login Page

What user sees:

- Mobile number input
 - “Get OTP” button
 - Password login option
-

What user does:

👉 Enters mobile number → clicks “Get OTP”

What system does:

- Sends OTP
 - Creates temporary session
-

➡ Next: **OTP Verification Page**

2. OTP Verification Page

What user sees:

- OTP input field
 - “Verify” button
-

What user does:

👉 Enters OTP → clicks “**Verify**”

What system does:

- Validates OTP
 - Logs user in
-

➡ Next:

- New user → **Onboarding Page**
 - Existing user → **Dashboard**
-

3. Onboarding Page

What user sees:

- Name
 - City
 - Skills
 - Interests
-

What user does:

👉 Fills details → clicks “**Continue**”

What system does:

- Creates user profile
 - Tags user for AI recommendations
-

➡ Next: **Dashboard**

4. Dashboard (Home Page)

What user sees:

- Total earnings
 - Pending earnings
 - Ongoing tasks
 - Trending tasks
-

What user does:

👉 Clicks “**Tasks**” (main action)

What system does:

- Loads Task Page
-
-

5. Task Page (Main Split)

What user sees:

Two options:

- **Daily Tasks**
 - **Dedicated Partners**
-

Default view:

👉 **Daily Tasks**

User decision:

Option 1:

👉 Wants quick earning → stays on Daily Tasks

Option 2:

👉 Wants stable income → clicks Dedicated Partners

6. Daily Tasks Page

What user sees:

- List of tasks
 - Each task shows:
 - payout
 - short description
-

What user does:

👉 Clicks “Start Task”

What system does:

- Assigns task to user
 - Sets status = **IN_PROGRESS**
-

➡ Next: **Task Detail Page**

7. Task Detail Page

What user sees:

- Full instructions
- Guidelines
- Proof requirements

What user does:

👉 Completes task (inside or outside app)

Then:

👉 Clicks “**Submit Proof**”

➡ Next: **Proof Submission Page**

8. Proof Submission Page

What user sees:

- Upload option (image / link / form)
-

What user does:

- 👉 Uploads proof
 - 👉 Clicks “**Submit**”
-

What system does:

- Saves submission
 - Changes status → **UNDER_VERIFICATION**
-

➡ Next: **Verification Page**

9. Verification Page

What user sees:

👉 Message: “Please wait, your task is under verification”

What system does:

- Verifies submission based on company guidelines
-

Result:

✅ If Approved:

- Adds money to wallet

❌ If Rejected:

- Shows rejection reason
-

What user does next:

Approved:

👉 Clicks “Go to Wallet”

Rejected:

👉 Clicks “Resubmit”

10. Wallet Page

What user sees:

- Available balance
 - Pending earnings
 - Cashback
-

What user does:

👉 Clicks “Withdraw”

What system does:

- Creates withdrawal request
 - Processes payment
-
-

11. Dedicated Partners Page

What user sees:

- List of companies
 - Each with earning potential
-

What user does:

👉 Clicks “View Details”

➡ Next: **Company Detail Page**

12. Company Detail Page

What user sees:

- Company overview
 - SOPs (guidelines)
 - Training preview
 - Work details
-

What user does:

👉 Clicks “Choose Company”

System shows:

- Confirmation (3-month commitment)
-

User action:

👉 Clicks “Confirm”

What system does:

- Assigns company
 - Locks user for 3 months
 - Creates training record
-

➡ Next: **Training Dashboard**

13. Training Dashboard

What user sees:

- Training modules
-

What user does:

👉 Clicks “Start Training”

What system does:

- Tracks progress
-

➡ After training → Work starts

14. Dedicated Work Submission

What user does:

👉 Clicks “Submit Work”

Flow:

- Same as Daily Task:
 - Upload proof
 - Submit
 - Verification
 - Earnings
-
-

15. Completion (After 3 Months)

What user sees:

- Certificate available
-

What user does:

👉 Clicks “Download Certificate”

System:

- If unpaid → ask ₹499

- If paid → allow download
-
-

16. Membership Page

What user sees:

- Plans:
 - ₹299/month
 - ₹2499/year
-

What user does:

👉 Clicks “Buy Now”

What system does:

- Processes payment
 - Activates membership
 - Adds ₹99 cashback (yearly plan)
-
-

17. Settings Page

What user sees:

- Profile edit
 - Password change
 - Logout
-

What user does:

👉 Clicks “Logout”

System:

- Clears session

[→](#) Back to Login

Login → Dashboard → Tasks → Start Task → Submit Proof → Verification → Earn → Wallet
→ Withdraw
